Loss Prevention

- Loss Prevention algorithm helps you find suspicious transactions easier than ever
- View/Search multiple cameras associated with any transaction
- Exception reports by date, store, product, employee and/or type of transaction
- Loss Prevention report by store and employee
- Monitor discounts, negative transactions and items by employee
- See transactions, receipt and video all on the same screen

Data

- Dynamic dashboard gives you real time view of your entire enterprise and/or individual store
- Monitor stores performance against a previous point in time
- Check average items sold and average transaction value by employee
- Check employees time & attendance and working hours
- Monitor the sales trend & current sales of products
- Monitor the sales by register, hour, tender, day part or revenue center
- Helps scheduling employees shift by checking hourly sales trends
- Any report can be downloaded to excel or printed out
- Select which discounts and transactions to monitor closely

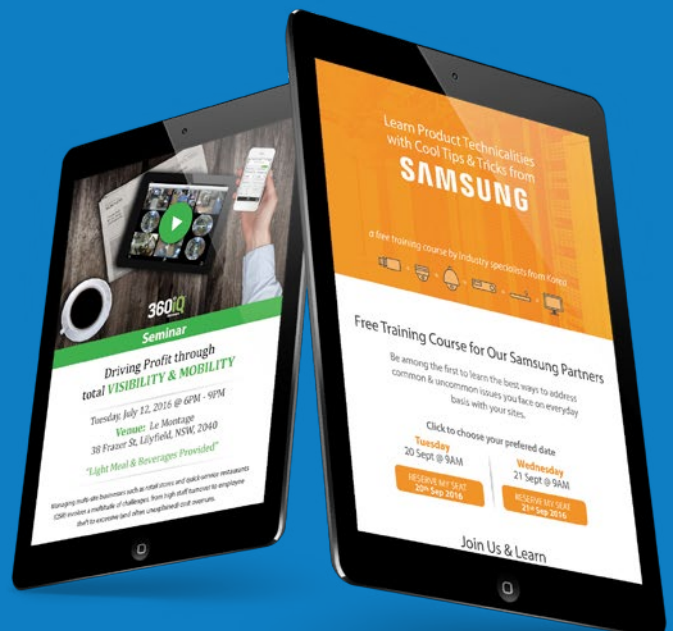

Video

- Supports both analog and IP cameras
- Search historical video by date & time
- Take screenshots and send out by email
- View video at the store without internet
- View cameras remotely
- View cameras from multiple stores on the same screen
- Adjust cameras by brightness, contrast, hue and saturation
- Adjust resolution based on quality of internet
- See how much video is stored by clicking on a camera
- Motion detection
- Text overlay on video (configurable to turn on or off)
- Record one or multiple cameras at the same time
- Assign cameras by groups (eg. look at all your backdoor cameras on one screen)

Alerts*

- Alerts sent to your email, cell phone or highlighted in 360iQ application
- Alert when motion is detected
- Alert when no motion is detected for a certain period of time
- Alert, if the transaction duration is too long
- Alert, if the transaction includes a type or combination of exceptions
- Alert, if the transaction is above a certain amount
- Alert, if the number or % of discounts go over a certain amount
- Alert, if your cooler or freezer temperature goes above a certain level (*available when a proper sensor is installed)
- Alert when first transaction from the store
- Alert when first employee clocking into the store
- Alert when no employees on the clock when the store is open
- Alert when no transactions on the register above a set period of time
- Alert when sales off by a certain % compared to a previous point in time

Reporting

Preset reports by day or week

Sales, Loss Prevention,
Employee time & Productivity

Create custom reports

Pro-active Services

In addition to the 360iQ platform, there are a number of services available to assist in the management of your business.

360iQ Snapshot

A comprehensive report providing an overview of store performance. Based on a series of weighted questions regarding protocol, compliance, and service, an owner operator can instantly pinpoint problems or weaknesses specific to that particular establishment.

- Measure Improvement & Trends - Compare current score to historical scores
- Time to Service
- Instant Verification
- Employee Performance
- Instant Verification with linked video

360iQ Incident Report

Requested a detailed step-by-step analysis for any specific transactions, events or compliance issues:

- Robberies
- Customer complaints
- Employee incidents
- Theft & Loss Prevention

Each Report Provides:

- Detailed picture exhibits
- Video archiving
- Case support

360iQ Pro-Active Support

For peace of mind, knowing that all your equipment is being proactively monitored. This service includes unlimited support for any issues, such as:

- Cameras not connecting
- No video available remotely
- Hardware issues with NVR or cameras
- No data transactions
- Issues with mobile apps
